

Few courses offer a paramedic the opportunity to refresh and enhance Airway Assessment and Management Skills. Alert EMS LLC, created a hybrid course with the purpose of assuring fundamental airway management skills with evidence-based medicine.

In the past, this has been referred to as a Difficult Airway Course. We now call it Top Gun Airway.

The **Top Gun Airway Course** provides twenty-four (24) hours of CME. It is designed as an evidence based Advanced Airway Management course that will offer sixteen (16) hours of in-house material. This material is supported by eight (8) hours of CME that will be assigned as Pre-Course Work.

National Registry Paramedic Recertification (Total 5.0 hours Core)

Ventilation (2 hrs.), Capnography (1 hr.) and Oxygenation (0.5 hr.) (EMS Research (1.0 hr.)
Evidence Based Guidelines (0.5 hr.)

New York State Paramedic (Total 9.0 hours Core)

Airway Management & Ventilation (3 hrs.), Respiratory (3 hours), Pharmacology & Medication Administration (3 hours)

Refresher material to be reviewed:

- Airway Anatomy
- Capnography / Capnometry
- Gas Laws
- Gum Bougie
